Seattle has adopted the 2015 International Existing Building Code, with amendments specific to our city. What It Isn't. This code does not cover the design and construction of new buildings. Those regulations are found in the Seattle Building Code. This code also does not cover regulations for single-family houses, duplexes, and townhouses with up to three stories and separate entrances.

context of the broad-based principles that facilitate the use of new materials and building designs. The updates to this code make it an essential reference guide for anyone seeking a strong working knowledge of building systems.

This comprehensive code comprises all building, plumbing, mechanical, fuel gas and electrical requirements for one- and two-family dwellings and townhouses up to three stories. The IRC contains many important changes such as: An updated seismic map reflects the most conservative Seismic Design Category (SDC) based on any soil type and a new map reflects less conservative SDCs when Site Class A, B or D is applicable. The townhouse separation provisions now include options for using two separate fire-resistant-rated walls or a common wall. An emergency escape

Download File PDF 2015 International Existing Building Code Commentary

and rescue opening is no longer required in basement sleeping rooms where the dwelling has an automatic fire sprinkler system and the basement has a second means of egress or an emergency escape opening. The exemption for interconnection of smoke alarms in existing areas has been deleted. New girder/header tables have been revised to incorporate the use of #2 Southern Pine in lieu of #1 Southern Pine. New tables address alternative wood stud heights and the required number of full height studs in high wind areas.

Customize your 2015 INTERNATIONAL EXISTING BUILDING CODE SOFT COVER book with updated, easy-to-use TURBO TABS. These handy tabs will highlight the most frequently referenced sections of the latest version of the IEBC. They have
