This wide ranging collection of original essays covering themes of Education, Colonial Politics, Caribbean Regionalism and the Caribbean in the Atlantic World was prepared as a tribute to educator and historian Roy Augier. The 28 chapters reflect the principal areas of Augier's academic and professional activities within the walls of the University of the West Indies and beyond, especially in his various roles at the Caribbean Examinations Council.

This new book offers comprehensive coverage of the new CSEC syllabus, bringing history alive in the classroom with a range of activities and a lively written style that is suitable for all students. Written by experienced teachers and authors, and extensively reviewed across the Caribbean region, this title incorporates classroom-friendly content and activities to give students the opportunity to discuss, interpret and develop their critical analytical skills. It includes suggestions for debate, role play and source analysis as well as step-by-step guidelines to writing School-Based Assessment (SBA) research papers.

This Handbook provides a systematic and analytical approach to the various dimensions of international, ethnic and domestic conflict over the uses of national history in education since the end of the Cold War. With an upsurge in political, social and cultural upheaval, particularly since the fall of state socialism in Europe, the importance of history textbooks and curricula as tools for influencing the outlooks of entire generations is thrown into sharp relief. Using case studies from 58 countries, this book explores how history education has had the potential to shape political allegiances and collective identities. The contributors highlight the key issues over which conflict has emerged – including the legacies of socialism and communism, war, dictatorships and genocide – issues which frequently point to tensions between adhering to and challenging the idea of a cohesive national identity and historical narrative. Global in scope, the Handbook will appeal to a diverse academic audience, including historians, political scientists, educationists, psychologists, sociologists and scholars working in the field of cultural and media studies.

At the age of twelve, Sophie Caco is sent from her impoverished village of Croix-des-Rosets to New York, to be reunited with a mother she

barely remembers. There she discovers secrets that no child should ever know, and a legacy of shame that can be healed only when she returns to Haiti--to the women who first reared her. What ensues is a passionate journey through a landscape charged with the supernatural and scarred by political violence, in a novel that bears witness to the traditions, suffering, and wisdom of an entire people.
