* Review provides a succinct, updated review of common issues facing the primary care physician. * Great tool for the family practice physician preparing for certification or recertification, as well as those preparing to take the SPEX -- A panel of specialists in various clinical disciplines has been added to provide in-depth knowledge of relevant clinical conditions with a holistic, family practice approach.

This follow-up and review book to Dr. Robert Taylor's highly successful FAMILY MEDICINE: PRINCIPALS AND PRACTICE, will become an indispensable study guide for family practice residents preparing for certification exams, practitioners preparing for recertification and medical students during their family practice clerkship. Complete with over 1,200 questions drawn directly from and keyed to family medicine, this question and answer book will provide an extensive review of all the issues confronted by family practitioners in clinical practice.

Includes nearly 2,500 case-based questions and answer rationales, newly updated to reflect the most current developments in practice. Chapter Summaries offer a quick review of the concepts—great for last-minute exam preparation. Open-ended Clinical Case Management Problems in each chapter provide additional opportunities for articulating your understanding of key topics. Features the most current information on concussion management, palliative care, pain management, and more. Allows you to earn up to 75 CME Credits online through Rutgers Robert Wood Johnson Medical School.

Thoroughly updated for its Fourth Edition, this book is a comprehensive review for the American Board of Family Medicine certification and recertification exams. It contains over 1,800 board-format questions, including over 1,000 multiple-choice questions from the major subject areas of family medicine and over 700 questions drawn from 60 clinical problem sets. The book includes a pictorial atlas of clinical photographs, radiographs, and lab smears, with questions regarding these images. Detailed answers and explanations follow the questions. This book includes AMA PRA Category 1 Credit(s)™ sponsored by Lippincott Williams & Wilkins. A companion website includes four practice exams. The website also offers an iPod downloadable audio companion with 120 facts from Bratton's 1000 Facts to Help You Pass the Family Medicine Boards book, with an option to buy more.

EMonCall handheld software provides on-the-spot treatment advice for the most frequently encountered problems in emergency medicine. The unique On Call format is organized for quick access to over 120 of the most common problems seen in the emergency department. For each on-call problem, users can immediately focus on the presenting problem, immediate questions, differential diagnosis, lab and other diagnostic tests, and treatment plan. Additional information on laboratory tests, procedures, fluids and electrolytes, and blood component therapy enhance the software's value as a single-source reference. The commonly used medications section offers quick access to the most frequently used medications in the emergency department.
