ongoing debate about school vouchers, tax credits, and charter schools.

A user-friendly, practical examination of the issues impacting education finance today. Retaining the practical tone and superior presentation that made the previous editions best sellers, this new edition of *Financing Education in a Climate of Change* presents the most up-to-date information and material available in the dynamic field of school finance. Easy-to-understand tables and figures, thought provoking end-of-chapter assignments, new chapter learning objectives, and practical budget and accounting examples help readers gain a firmer understanding of all facets of financing education. The 13th Edition adds information on classic and current topics, including the economics of education, recent court decisions, 50-state comparison tables, state taxes, and the ongoing debate about school vouchers, tax credits, church-state issues, and charter schools.

In 1994, Congress passed the Improving America's Schools Act. Thereafter came the AMERICA 2000 and GOALS 2000 plans, and the President's ten point proposal, "A Call to Action," recommending costly national tests. And now we are witness to school vouchers, a burgeoning number of charter schools, and the privatization of school districts. The common link among these educational policies, recommendations and changes is finance. This book explores the all-important subject of educational finance through scrutiny of both the past and present. This comprehensive book examines school finance, encompassing the historical, economic, and legal perspectives. An excellent reference guide, the book is written simultaneously in both a scholarly and reader-friendly manner. Other topics covered include

This book discusses the state of global climate change policy and the financing of climate resilient public infrastructure. It explains the sources of tensions and conflict between developing and developed countries with regard to global climate protection policies, and highlights the biases and asymmetries that may work against gender equality, women ' s empowerment and poverty eradication. Gender and Climate Change Financing: Coming Out of the Margin provides an overview of the scientific, economic and political dynamics underlying global climate protection. It explores the controversial issues that have stalled global climate
