The author of the bestselling Fifty Places series returns with a globe-trotting guide to the best and most beautiful places to rock climb around the world Fifty Places to Rock Climb Before You Die is a beautifully illustrated guide to some of the greatest rock-climbing locations around the world, as recommended by expert climbers. The book will cover three types of climbing—trad, sport, and bouldering—and will showcase breathtaking venues from Joshua Tree to Jeju, South Korea. Featuring insights from industry insiders, including employees from rock-climbing gear companies like Petzl and Black Diamond Equipment, professional climbers like Jon Cardwell and Kevin Jorgeson (co-star of Dawn Wall), filmmaker Michael Call, and Climbing magazine editor Matt Samet, Fifty Places to Rock Climb Before You Die is the essential travel companion for climbers of all levels of expertise.

The comprehensive guide to the place that brought sport climbing to North America—a full-color, thoroughly updated new edition Smith Rock State Park. It was on the impressive crags of this Oregon hideaway that American sport climbing came into its own, and to this day, some of the hardest climbs in the United States are found on these walls. Alan Watts, who has played a leading role in the development of this popular rock-climbing destination, details more than 1,700 routes at Smith Rock and the surrounding area. This new edition updates hundreds of routes, includes hundreds of new ones, and has new photos of each crag, wall, and route. No other guide is as comprehensive or thorough, and no author more respected for his intimate knowledge of one of the world's most popular climbing destinations.

The beginnings of recovery? Some materials costs are rising, and so are direct labour costs. Spon's Architects' and Builders' Price Book 2014 gives you the total picture. Spon's Architects' and Builders' Price Book 2014, compiled by Davis Langdon, still provides the most accurate, detailed and professionally relevant construction price information for the UK. Its unique Tender Index, updated through the year, gives an ongoing reality check and allows you to adjust for changing market conditions. Although it suits a wide range of project sizes, this is the only price book which sets out a detailed cost base for contracts exceeding £3,500,000 in value. NRM1 and NRM2 are used instead of SMM7R as the measurement standards throughout. As well as an overhaul of prices, over 300 new items have been added to Spon's Architects' and Builders' Price Book 2014. These include: New cost models for out of town retail, office to residential conversion, and a museum fit out New cost models for out of town retail, office to residential conversion, and a museum fit-out A re-formatted Preliminaries example, and typical hire rates for common preliminaries items Automated car parking systems - (simple stack systems to fully automatic) Plasmor concrete blocks Diamond drilling, now completely overhauled ETFE roofing Extended range of underground drainage Flowing screeds ... along with the standard features you have come to expect from Spon's Architects' and Builders' Price Book: 20,000 prices for the most frequently specified items, the majority with labour constants and detailed build-ups. Hundreds of alternative materials prices for the more unusual items. Detailed guidance on wage rates, daywork, cost limits and allowances, property insurance and professional fees, plus useful formulae, design criteria and trade association addresses. Updated, free of charge, two or three times a year - see inside for registration details.
