in central France. The walks are ideal for day walkers and hikers, with routes ranging from easy 5km outings to more challenging 20km hikes. All are illustrated with clear mapping and colour photographs. The guide focuses on the best routes in five different areas, including Cantal, the Chaîne des Puys (Monts Dômes), the Monts Dore, the Haute Loire (Livradois and Velay) and the Montagne Bourbonnaise, with bases including Vichy, Clermont-Ferrand and Puy-en-Velay. The routes in this guidebook offer walking on truly spectacular volcanic landscape, with grassy domes and volcanic bowls and long, rambling

ridges, yet the walking is generally suitable (nothing over 1,900m) for all walkers, and the area is both accessible and provides a wide range of cultural and historical (and geological) interest. The guidebook also provides a wide range of practical information for visiting the Auvergne, with accommodation transport, and preparation advice, as well as providing a wealth of detail on the many places of interest along the walks.

"Discover the secrets of flyfishing for carp--learn the habits and habitats of these challenging fish, what flies they'll take, and how to put those flies in the right place at the right time to catch carp consistently"--Cover.

An epic fairytale romance set in a semi-fictional ancient world, containing elements of action, adventure, poetry and comedy. The

title has a triple meaning: the central character is a renowned beauty - 'the rose of the world' - while the rose flower features heavily in the plot, and it also implies that the world rose up. When Ronwind Drake discovers treasures in a distant paradise, a new golden age seems set to begin, but Ella Tundra will find that all which glitters is not gold as she faces many obstacles in her quest for true love.

Inland fisheries are important sources of ecosystem services contributing to human diet, health, well-being and economies. The

evaluation of the importance and value of inland fisheries is one of the biggest challenges for its development. To develop the inland fisheries data collection, we reviewed the current status of data collection in European countries and provided five detailed country examples. The specific country examples give detailed description of data collection, focusing on: 1) country-wide postal survey (Finland) and 2) web-based survey and development of citizen science approach (Denmark). Example 3) from Ireland focuses on recreational salmonid fishing and conservation limits. There are two examples

based on logbook returns: 4) one strict system, which is considered to work well (Czech Republic) and 5) one less controlled system, currently not producing reliable results, and under development (Croatia). Case studies were provided in each country example. Finally, the authors discuss the important aspects of inland fisheries data collection and review the methods to provide recommendations.
