WHY BUY THIS BOOK? Because It Answers the Hard Questions Economically, dental partnerships make great sense in terms of optimizing assets, sharing costs, increasing revenues and fine-tuning division of labor. Yet in the United States, over 80% of dentists practice solo, and this figure has held steady for decades. What causes this overwhelming and enduring pattern of dentists continuing to practice solo? Top practice management advisers now declare, "One sure way to realize a return on investment in your practice is to transition the practice from a solo to a partnered enterprise." They recommend the best route to be through the process of associateship to partnership, selling 50% to the partner, then continuing to work in the practice and selling the remaining 50% downstream. This works only if and when the partnership works. What do you do with an expanded practice if the partnership doesn't work? The majority of dental associateships and partnerships underperform or fail altogether. Although no clear studies are available, a number of dental journals report the failure rate in dental partnerships to be somewhere between 70% and 90%. Why do dental partnerships have such an extremely high morbidity rate? Nearly all associateships and partnerships begin with tremendous goodwill, excitement and enthusiasm. The future appears extremely bright. However, it is not uncommon that within five years, the shine disappears and is replaced with dissatisfaction. What causes partnerships to unravel? When an associateship-to-partnership fails, the costs are extremely high in terms of money, time and emotional distress. The effect on staff performance and patient relations can be demoralizing as well. Partnership failure in dental practices costs hundreds of millions of dollars every year and untold emotional damage. What can be done to prevent this? Surveys reveal the majority of dentists have difficulty in communications, particularly with their associates or partners. Consequently, they are ineffective at handling problems directly, resolving conflicts and making mutual business decisions. What are the factors that thwart a dentist's ability to effectively communicate to an associate or partner? It seems dentists are in a quandary. A clear path to economic freedom and asset optimization exists through recruiting an associate and transitioning the associate to a partner. The problem is most dental partnerships don't work. This book provides answers to the most common and destructive issues and problems that cause dental partnerships to fail. If you are considering a partnership as a strategy, or if you currently have an associate or partner, this book will enhance your ability to succeed.

A 250+ Page Operations Manual that will give you detailed systems to help run your dental practice including Foundational Elements, Back Office Systemization, Front Office and Billing Routines, Human Resources Guidance, Positional checklists, Marketing Resources and Patient Experience verbiage. With all this as an example, you will have no trouble finishing your own Operations Manual for your practice so that you are not reliant on a few key players- but that everyone plays in the system. Online documents available that will correlate to the handbook will also speed up the learning curve and allow you to maximize the potential this book holds. Don't waste weeks and months doing it yourself, copy this one- and make yours even better!

New York Times bestselling author Donald Miller uses the seven universal elements of powerful stories to teach readers how to dramatically improve how they connect with customers and grow their businesses. Donald Miller's StoryBrand process is a proven solution to the struggle business leaders face when talking about their businesses. This revolutionary method for connecting with customers provides readers with the ultimate competitive advantage, revealing the secret for helping their customers understand the compelling benefits of using their products, ideas, or services. Building a StoryBrand does this by teaching readers the seven universal story points all humans respond to; the real reason customers make purchases; how to simplify a brand message so people understand it; and how to create the most effective messaging for websites, brochures, and social media. Whether you are the marketing director of a multibillion dollar company, the owner of a small business, a politician running for office, or the lead singer of a rock band, Building a StoryBrand will forever transform the way you talk about who you are, what you do, and the unique value you bring to your customers.
