~~Organic Square Foot Gardening: The Beginner's Guide to ...~~

Square foot gardening is an engineer's solution to the problem of how to grow enough food for your family with the minimum waste of space, time, work and resources while getting the best results. One square foot garden unit measuring 4ft x 4ft - only 16 sq ft - will produce enough high-quality vegetables to feed one person every day.

1. Provide each pupil with a sheet of 12" x 12" paper and ask them to divide their paper into four equal parts (using folding as a strategy). Explain that seeds can be planted in the middle of each of the four equal parts and ask pupils which plants can grow four per square feet (see A59 sheet page 2 for handout).
- 2.
