Artists are now using new, advanced technology to create works of art as well. Eric Standley, an artist based in Virginia, makes stained glass-like pieces using laser-cut papers. He stacks sheets of paper, often more than 100 of them, and uses lasers to cut intricate designs into them. #2 Sometimes, Tech is the Art. In other cases, the technology itself is part of the finished work of art.

The manipulation of pressure, moisture content, and gas flow enables biomass carbonization with fixed-carbon yields that approach or attain the theoretical limit after reaction times of a few tens of minutes. Much of the heat needed to carbonize the feed is ...

or as a solid ground pushes our  
opinions and understandings of nature  
to the limits. And with new inventions
